Statement of Special Inspections

Project Description: _____

Project Address: _____

Special Inspection Agency or Agent: _____
(Must be approved by Building Official)

During the construction of the referenced project special inspections are to be provided by the owner in accordance with Chapter 17 of the 2012 International Building Code. The following areas of work will require special inspections unless otherwise allowed by building official.

Per 110.3.8 Other Inspections. 1) Every commercial building construction location in accordance to the approved plans shall be staked and located horizontally and vertically by a Kansas licensed surveyor to confirm required building setbacks and/or in conjunction with any Design Flood Elevations required in 107.2.5.1.

Engineer can submit a written request for exclusion of this requirement from the building official when determined unnecessary to confirm compliance.
